PLEASE READ CAREFULLY AND SIGN

Your pet is scheduled for anesthesia/surgery. Your pet needs a blood profile test to ensure he/she is in a low risk category prior to anesthesia. Blood and urine tests on your pet can be very important to detect disease and to allow the best possible health care for your pet. The latest technology enables us to run safe and accurate blood chemistries just minutes before administering anesthetics. These test are similar to those your own physician would run if you were to undergo anesthesia. Additionally, these tests serve as reference values for future use should your pet become ill.

A. Pre Anesthetic Screen Total Cost = \$ 38.00

This is recommended for all healthy animals under two (2) years of age.

OPTIONAL: Electrocardiogram \$30.00 Y N

Tests: Complete Blood Count (anemia, infection, clotting)
 BUN (kidney) ALKP (liver)
 Glucose (sugar) Total Protein (hydration)
 ALT (liver) Creatinine (kidney)
 Chloride Potassium (kidney)
 Sodium

B. Pre Anesthetic Screen 2 Total Cost = \$ 55.27

This is recommended for all healthy animals from 2 - 7 years of age:

OPTIONAL: Electrocardiogram \$29.00 Y N

Tests: Same as the Pre Anesthetic Screen plus:
 ALB (protein,liver) Globulin (immune status)
 Calcium (certain cancers) Urinalysis (kidney, hormone)

C. Senior Health Screen Total Cost = \$ 129.74

This is recommended for healthy animals over 7 years of age, as an annual screen and before undergoing anesthesia:

Tests: Same as the Pre anesthetic Screen 2 plus:
 Amylase (pancreas) Cholesterol (liver)
 Bilirubin (liver) Phosphorus (kidney)
 Thyroid Hormone (thyroid) Electrocardiogram (heart)

The above tests are based on our continued commitment to quality health care and preventive medicine for your pet. Please discuss any concerns or questions you may have about your pet with the veterinarian.

- Pre-Anesthetic Screen
- Pre-Anesthetic Screen 2
- Senior Health Screen
