### 1<sup>st</sup> Quarter 2010

Happy New Year from everyone at Sanford Oaks Animal Clinic! We would like to welcome two new team members, our receptionist Liz and our pet care technician Sylvia. We're thrilled to have them here!

January is Puppy and Kitten Month. New puppy and kitten wellness exams are 10% off this month, or 15% if you choose the comprehensive package including all young pet vaccinations. We offer free puppy and kitten kits, which include samples and pet care information on everything from local trainers to poisonous plants in the area.

February is Dental Month! Dental cleanings are 10% off. Our dental cleanings include a thorough oral exam, dental radiographs to check for root decay or fractures below the gum line, scaling the teeth to remove tartar and plaque, polishing to help remove any plaque or film missed by the scaling and restore luster, application of a chlorhexidine rinse, and a fluoride treatment to protect and strengthen the teeth. Be sure to book your appointment early to take advantage of the discount, as these fill up quickly.

March is Flea & Tick Prevention Month. Spring comes early in North Texas, bringing sunshine, flowers, new growth, and bloodsucking parasites. Fortunately, we carry several products to repel and kill external parasites, which often start reproducing rapidly in late February and early March. Now is the best time to make sure your pet is protected, and all flea & tick products are 10% off this month. Any of our staff would be happy to talk to you about which product is most appropriate for your pet.
